Judith Hackett's Report

Tim Gates Hampshire Fire & Rescue

The 2018 HHSEG One Day Conference Focusing on

Human Factors: The World of Work

The prestigious speakers will promote the case for managing Human Factors in the Workplace.

The Conference will explore Organisation; Individual; Job; Human Failures – Errors and Violations; the models of Reason et al and their application in today's workplace.

Review the Legal aspects of occupational safety and health and look towards a positive direction for future Health and Safety Law.

Discuss the occupational safety management of Young Workers. Their lack of experience and maturity may make them vulnerable to occupational ill-health and the risk of occupational accidents.

Debate the Health and Safety Executive's Health Priority Plans for Occupational Lung Disease; Musculoskeletal Disorders; and Work-Related Stress.

Consolidate your knowledge of Human Behaviour in Fires and why individuals perform in certain ways when confronted with fire.

Review Dame Judith Hackett's findings for a simpler risk-based regulatory system for fire safety in high-risk buildings.

Network with like minded colleagues to share expertise and experiences.
