## Benefits of Joining Our Group

Regular meetings, low cost or free courses and conferences.

Opportunity for constructive networking with a variety of professionals from diverse organisations.

Contact and liaison with organisations such as the HSE, Environmental Health Officer from Local Authorities, Fire Authorities and Welsh Assembly Government.

A helpful source of information for all businesses including SMEs.

Low cost affordable annual membership.

## To Join

Simply visit our web site  
<http://swwsafetygroup.co.uk>

## About us

Established since 1943. We have achieved many awards by the Safety Groups UK since 1996 with a gold award on no fewer than six occasions including the number one award.

## Our Annual Awards

All our members are invited to apply for awards for their annual performance. The awards are adjudicated by the HSE and experienced members of our group.

The awards are presented at an Awards Dinner by the HSE and Civic Dignitaries. We encourage all members to apply including small organisations.

We also recognise employees contribution and organisations who actively engage in assisting small businesses.

## Vision

To be the group that local businesses, organisations and safety and health professionals recognise as outstanding in matters of occupational safety and health.

We have an interesting annual programme of events which include monthly meetings where speakers present and inform on relevant topics. There is always a discussion with questions and answers. All our events attract CPD points. Almost invariably our meetings are on a Wednesday afternoon and often an officer from the HSE attends as well as Environmental Health Officers.

We also have a fun quiz night. Our awards dinner is always an enjoyable event where rightly so our members are recognised by the HSE and civic dignitaries for their work and are presented with certificates and shields.

Every June we hold our annual seminar and for the past two years we have concentrated on a single subject which has proved popular. This year on Wednesday June 27th at the Liberty Stadium where Behavioural Safety will be the topic.

Our group is celebrating 75 years of excellence and many of our members have pledged to give something to the community and/or workplace to improve safety and well being. You don't have to be a member of our group to do this and we welcome pledges for all organisations or individuals. The pledge form and information is on our website.

## Please confirm details on our website before attending any events
