Learning Occupational Health
by Experiencing Risks

south essex college
FURTHER & HIGHER EDUCATION

Poster design: Adam Gentry

It is what you
can't see that will
cause you harm!

Just
because
you can't
see the
fine spray
it doesn't
mean it's
not there
in the
booth!

Are your
lungs
important
to you?

Remember your air
fed mask protects
you. Living with
occupational asthma
is not fun!
